Adobe Photoshop

Abdellah Bahsine

Web Developer with a passion for coding and solving problems. On a forever journey of professional growth, and learning.

EXPERIENCE

Shark Store App

HTML – Styled-components – React – Redux - Firebase

Shark Store is an e-commerce app that I created to sharpen my web development skills. It's user-friendly and responsive (All my websites are responsive).

MyTasks App

HTML – CSS – Bootstrap – React – Express.js - Mongoose

MyTasks App is a task management application. The reason why I created this app is because it has all the CRUD operations.

Coded 8 websites from scratch

I have coded more than 8 websites from scratch. Most of them are websites that I converted from PSDs.

CERTIFICATES / EDUCATION

Zero To Mastery Academy

This is where I learned React. I love Andrei Neagoie, who is the founder of the Academy, He is my role model as he's also a self-taught developer who worked at some of the top tech firms.
